

# Empowering Communities Through Knowledge and Collaboration

## Safe Care NSW eNewsletter – Partnership with MTC Employment

Safe Care NSW is proud to share the success of our recent NDIS Awareness Workshop, delivered in partnership with MTC Employment Liverpool. This free session focused on helping newly arrived migrants and refugees understand the NDIS eligibility criteria, access pathways, and available supports.

The workshop was led by our Director, Neila El Abed, a registered Social Worker whose passion for community empowerment continues to shape the work we do. Neila's commitment to providing clear, practical information ensured that participants left feeling informed, confident, and supported.

We extend our heartfelt appreciation to Jacqueline, Director at MTC Employment Liverpool, for championing this partnership and providing students with the opportunity to receive additional guidance. We also acknowledge the invaluable support of Zac Rassak, whose coordination and hands-on involvement helped ensure a smooth and successful event.

This initiative highlights our shared dedication to:

- Strengthening multicultural inclusion
- Improving access to essential services
- Building collaborative networks across NSW
